IMAGINE ILLUMINATE INSPIRE

THE S4 DIFFERENCE

We are S4 – the industry’s only fully integrated provider of lighted environments.

S4 Lights is a world leader in decorative lighting & foliage innovations & technologies. Founded in 2009 by seasoned lighting industry experts and engineers, S4 has grown into a fully vertically-integrated enterprise with over 70 employees across offices in Virginia, Georgia, Oregon and China. With in-house product development teams in the U.S. and China, in-house manufacturing and QA teams in the U.S. & China and first-rate exclusive manufacturing partners, S4 Lights is able to quickly invent, design, develop, warehouse and deliver innovative, superior quality products to customers in a competitive and differentiated manner.

We are pioneers in the commercial decorative lighting industry.

With a focus on exceptional quality through innovation, S4 holds more than 26 patents for its various technologies and utilizes numerous proprietary products. S4 is the only company in the world to design and manufacture an innovation for the industry standard decorative string that creates longer consistent lumen performance and proven longer lasting string durability.

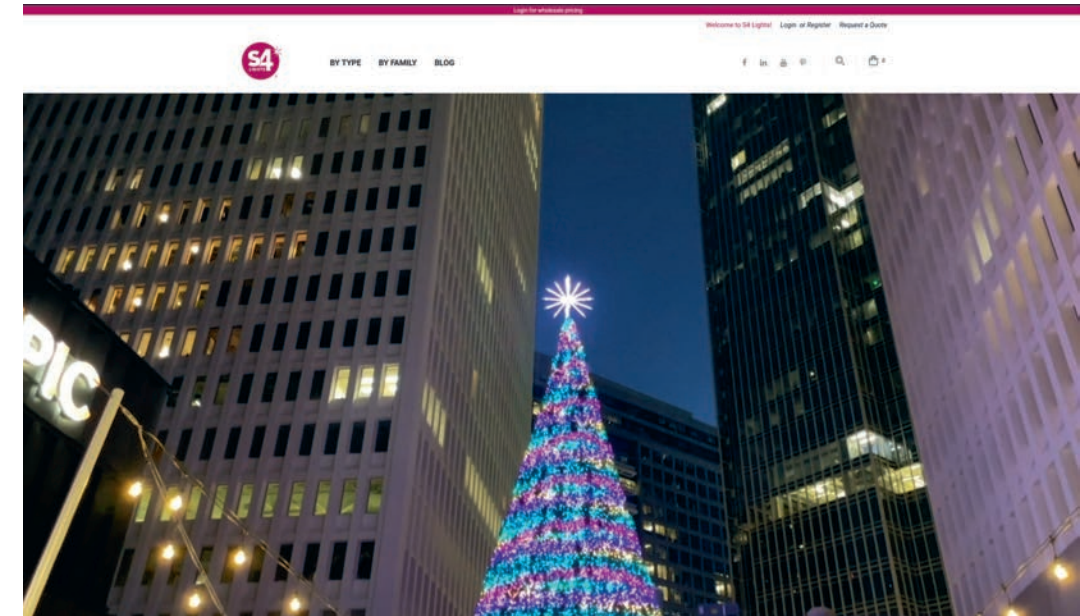

We design and engineer lighting solutions to specifically address the challenges professional installers face in the field.

Because we work closely with clients to help them create stunning holiday lighting shows, we have a unique understanding of the challenges installers face in the field. We offer exclusive products that solve installation problems, reduce re-service, and provide greater peace of mind.

We care and are here to help.

We work hard to assure our products are reliable and exceed performance standards and expectations, but we’re always here to help when you need it. We pride ourselves in being long-term partners who are committed to your success.

GREAT PRICE. BETTER STRING.

Better Basics are here.
Ships Balled without tags!

THE BASICS JUST GOT BETTER!

Benchmark Lite is our new budget-conscious, standard plug light string. In spite of its low price, it still meets the S4 quality standard, outperforming equivalent strings in the commercial decorative lighting industry.

HOW DOES BENCHMARK LITE COMPARE TO OTHER BUDGET STRINGS?

- Better construction and LED= Better Performance
- Same S4 consistency
- Better Warranty

Balled without tags, Industry-grade 5MM LED with epoxy-filled husk

PERFECTING PERFECTION

NxG NOW AVAILABLE IN LOW VOLTAGE VERSALINE®!

- 16 New Colors
- 3 New Effects

No. 1-5 = Multi-5 Color

Just when you thought the low voltage Versaline® family was complete in terms of reducing galvanic corrosion and GFCI tripping, along comes NxG, the most protective husk on the market, providing a longer-lasting, higher-performing decorative lighting solution with a superior seal against weather conditions.

Versaline® NxG®
72L 7mm Wide Angle LED Light String, 4in Bulb Spacing, 24VDC, Green Wire

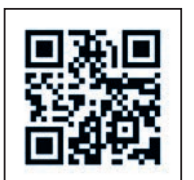

PRICE Steady - **\$15.63** Effect - **\$20.63**

COLOR	Orange	Yellow	Green	Aquamarine	Blue	Purple	Pink	Multi-5
SKU	1103697	1103699	1103700	1103701	1103702	1103703	1103704	1103705

Glisten (Pure White and Pure White Twinkle), Starlight (Warm White and Warm White Twinkle), Galaxy (Champagne and Pure White Strobe), Multi-5 (Ruby Red/Green/Yellow/Blue/Orange)

WHY NxG?

- NxG husks are filled with a high-grade epoxy which provides a superior seal, reducing oxidation, electrolysis, and current leakage.
- NxG husks are assembled using machine automation which affords greater consistency and quality control.
- Most standard light strings use lower standard LEDs that run high electrical currents, leading to inconsistent colors and lumen degradation. NxG employs higher quality LEDs that use less current.
- NxG's more prominent husk showcases the point of light, making it especially effective in foliage.

COVER OR CREATE A FORM-IDABLE FANTASY

WATCH VIDEO TO SEE HOW FORM'IT WORKS

S4 NOW AN EXCLUSIVE U.S. DISTRIBUTOR OF FORM'IT®

Say goodbye to unsightly cable covers. Hide power supplies and controllers with style and ease. Or go beyond and build a believable faux world with Form'it®!

Form'it® is a formable, innovative, patented textile that mimics scenic textures like stone, ice, snow, wood, moss, water, etc. Create stunning, realistic caves, snowdrifts, ice bars, trees, and volcanos in hours not weeks or simply use it to cover and camouflage what you don't want seen.

FORM'IT® IS...

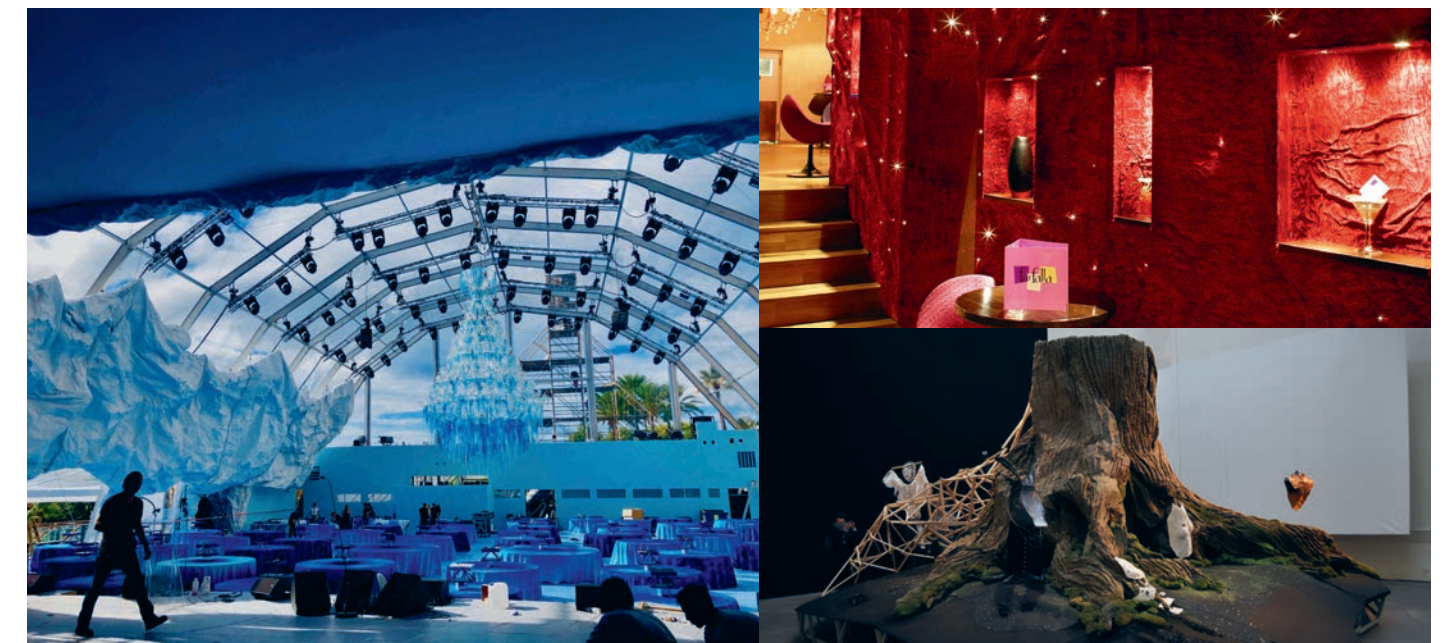

- Resistant—fireproof and waterproof
- Malleable and easy to cut, fold, glue, sew..
- Easy to install—shapes with the touch of your hand
- Light, but supports its own weight
- Compact and easy to store
- Ecologically sound—reusable, non-toxic, recyclable

Everlastings Now Available in KOS 51!
The most durable and now most versatile string on the market!
But don't take our word for it...

*"We installed 70 Everlastings strings on a tall pine in 2018. Then, the client moved out of state and the new owner called for an inspection of the tree lights. Upon arrival, I found 2 strings not working. 68 strings out of 70 strings still working. 4.5 years later! Unbelievable. There is nothing else like this on the market. If you have a client requesting "permanent" tree wraps, this is the product to use."
 - Steve, Light Up My Holiday*

Save time and money by reducing your inventory and cutting down on install change over.

Total flexibility of **51 unique colors and effects** using S4's patented lens design for classic mini look.

KOS 51 51 Color/Effect Combos	8 MAIN COLORS	7 MIXED COLORS
	4 DIFFERENT EFFECTS	ALL IN A SINGLE STRING!

Providing **greater theme flexibility** and **less maintenance** than other light strings.

Product Overview

Family and Series: King of Strings KOS51
Label: Light String and Controller

Features

- Ease Of Use**
- Simple-to-use power, control and infrastructure components
 - High Quality Construction
 - Epoxy-filled husks higher-grade LEDs
- Control**
- Use one-click Scene Sender
 - or get more control with DMX
- Warranty**
- Benchmark Coupling 3-Season or Everlastings 2-Year Warranty
- Extensive String Selections**
- 5mm and 7mm wide angle lenses
 - 4" and 6" spacing
 - Expandable and Non-expandable strings construction
 - 45 and 90 light count

Benefits

- Reduces the number of light string SKUs needed, simplifying inventory, warehouse management while reducing storage space
- Reduces labor and installation costs, offering a more permanent installation product solution.

NEW TO THE RGB WORLD?

We recommend starting with one of our Starter Kits, which will give you everything you need to put on a show whether it's a 3-channel Versaline display or a more sophisticated RGB DOP Plug N Play show, a starter kit will make install a breeze.

All DOP & Versaline Light Kits include the following:

- Power
- Infrastructure
- Cabled Lights
- Control

As you continue to build your display, add on to your kit for even more control and an even more engaging show!

S4 Light kits can be used with your own structures or used with one of our USA-made structures which includes:

- Pole Trees (S, M, L, XL)
- Fountains (Set of 8, includes (4) 12' and (4) 16' fountains)
- Tunnels (L, XL arch length)

DOP Plug N Play Light Kits

Versaline Light Kits

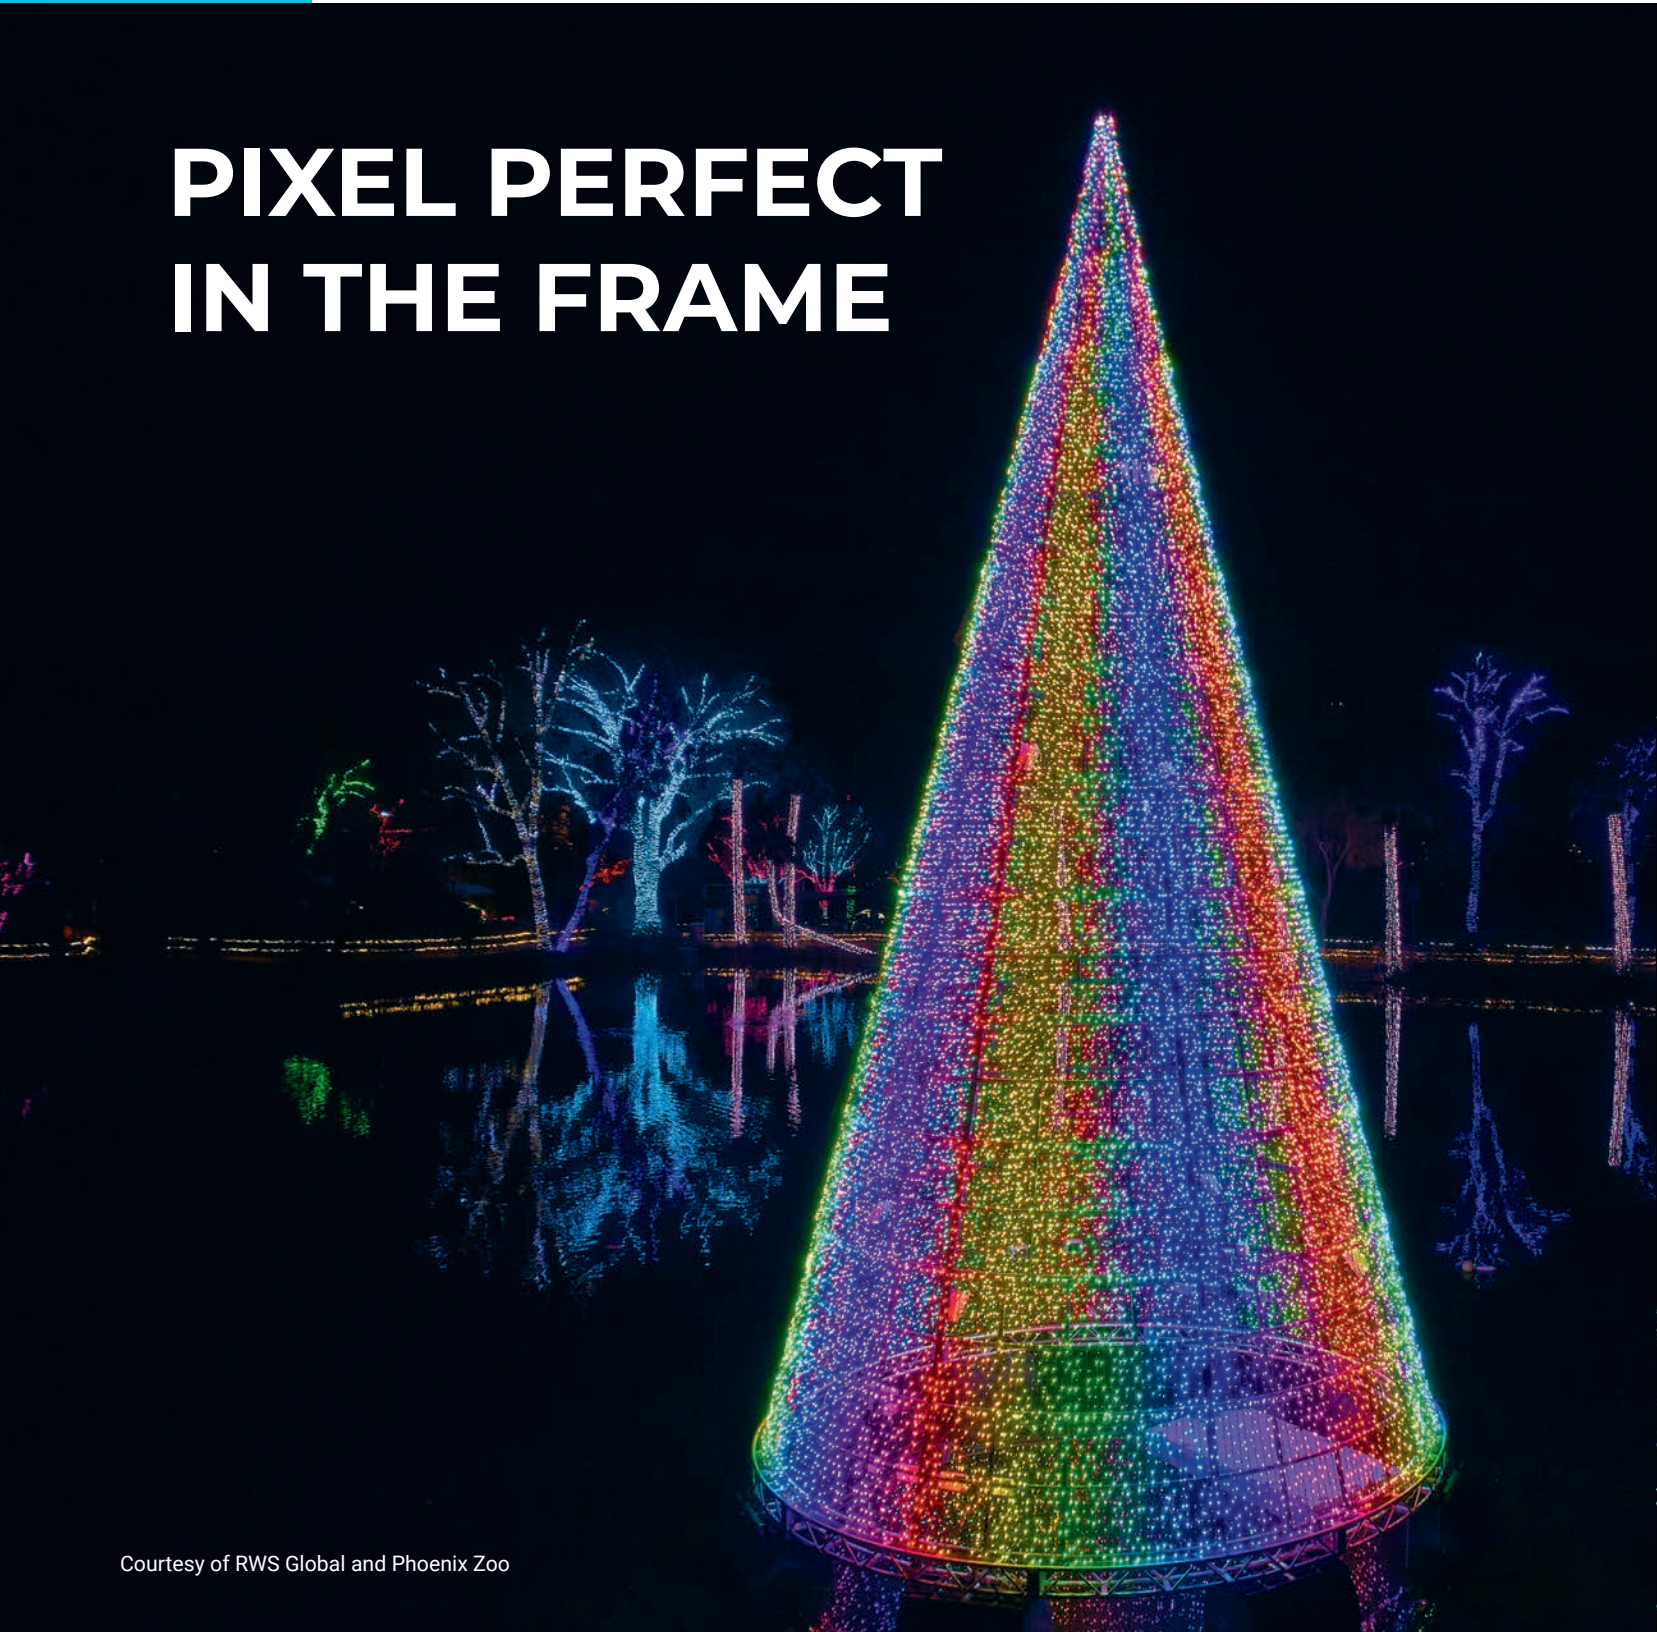

Use light kits on your own structures or **if you need a structure**, S4's structures (fountains, pole trees, and tunnels) are made-to-order and fabricated in our S4 Decor Oregon facility.

5 REASONS YOUR PIXEL PINE NEEDS A RISER

1. **A Riser saves money!** The most expensive part of the tree is the bottom.
2. A riser allows for **greater viewing and better show visibility.**
3. Risers that are tall enough can accommodate putting a door which makes **accessing the tree interior easier.**
4. With a riser, important components like Power Supply Units and other infrastructure is elevated from the ground, further **reducing contact with the ground and elements that can affect the systems.**
5. Logo placement: put your own logo on the tree or **sell the space to an advertiser** to underwrite the tree.

Risers provide an **almost 15% savings on Tower Trees!**

Get creative with our tree components to reach the height you need.

Need a 60' RGB Tree? You have options!
buy a 60' tree or buy a 50' Pixel Pine + 4' Riser + 6' Star!

Tower Tree Logo Riser
Starting at 4' Height Logo Riser for Tannenbaum Tower Trees, Full-round powder-coated metal skin including panels with custom logos, one access panel, and structural interior frame. Price includes S4i Color Beams & Stands for logo panel illumination.

Risers are custom made in our S4 Decor Oregon facility and come in a variety of colors. **For more information, contact your S4 Sales Rep.**

12FT PIXIE PINE SEQUOIA TREE

- Use with the S4i® LoopHQ
- Easy to install
- Hinged Branch, Instant Shape

Our new 12' Pixie Pine Sequoia Tree is a hybrid of two of our best trees—the world-class Pixel Pine and our best-selling, hinged branch Sequoia tree. The staggered branches have the look of a natural tree and the endurance to perform indoors or out

Four sections easily snap together with instant-shape and pre-lit RGB, DOP pixels making installation quick and a no-brainer.

Includes the following S4i® content:

- Basics Collection
- On With The Show Collection, including 13 shows from Beautiful Movements and 3 shows from Razzle Dazzle
